FEDERAL COMMUNICATIONS COMMISSION  
Office of the Secretary  
Ms. Marlene H. Dortch  
The Portals, 445 12th Street, S.W.  
Washington, D.C. 20554

Hello Ms. Dortch:

RE: NEW ANNISTON, AL; MM DOCKET NUMBER 95-31;  
PETITION FOR RESERVATION OF ASSIGNMENT

Please find enclosed an original and four copies plus a Stamp &  
Return copy of a Petition For Reservation Of Assignment in the  
above referenced matter.

On March 4, 2003, the staff adopted the Second Report And Order  
in MM Docket No. 95-31. It was released April 10, 2003.

The following is offered in support of the reservation of FM  
Channel 261C3 at Anniston, Alabama for non-commercial use.

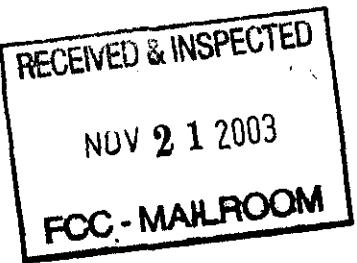

Sincerely,

Jimmy Jarrell  
President  
Jimmy Jarrell Communications Foundation, Inc.

**PETITION FOR RESERVATION OF ASSIGNMENT  
OF  
FM CHANNEL 261C3 ANNISTON, ALABAMA**

To the Associate Chief, Audio Division, Media Bureau

**I. INTRODUCTION**

On March 4, 2003, the staff adopted the Second Report And Order in MM Docket No. 95-31. It was released April 10, 2003. The instant petition is tendered in response to the Report And Order.

The Second Report And Order establishes new policies for licensing spectrum that the Commission has not reserved for the exclusive use of broadcast stations that provide or intend to provide noncommercial educational ("NCE") service. First, those stations that a nonprofit educational organization shows will be used to advance an educational program are eligible to be licensed as NCE radio or television stations and thus are exempt from auction. Second, the Commission will not hold applicants for NCE stations ineligible to apply for non-reserved channels, and instead will permit such applicants to continue to apply for this spectrum in filing windows. By the Report And Order the Commission announced that any applications for NCE stations determined to be mutually exclusive with applications for commercial stations,

## **PETITION FOR RESERVATION OF ASSIGNMENT, Cont'd**

however, will be dismissed, although applicants for services in which engineering solutions are possible will have a prior opportunity for settlement. Third, we reaffirm our existing relaxed reservation criteria, which enable would-be applicants for NCE stations in the full-power FM and TV services to add to the number of channels reserved for their use when they demonstrate that they are technically precluded from using an already-reserved channel, and they will provide needed NCE service in a given area. Interested parties may use these criteria to reserve channels in future allocation proceedings, as well as to reserve channels already in the Table of Allotments for which the Commission initiated an allocation proceeding prior to the August 7, 2000 effective date of the relaxed reservation standards, and for which the Commission has never accepted applications.

This petition requests the reservation of FM Channel 261C3 Anniston, Alabama. In support of this request, the following is shown:

A reservation showing must satisfy two distinct criteria. First, it must establish the relative need for a new NCE service by demonstrating that maximum class facilities at the proposed allotment site would provide a first or second NCE service to at least ten percent of the population within the proposed station's service area and that such population is at least 2000 persons.

**WORKSHEET #6**

**FAIR DISTRIBUTION.** FM Applicants may use this worksheet to answer the questions in Section III, Questions 1 and 2.

1. Using the centroid method for calculating population, based on the most recent census block data, the number of people residing within the radio station's 60 dBu (1 m/Vm) service contour (calculated based on the standard curves in 47 C.F.R. Section 73.313(c)) is:

220458  
x .10

2. Multiply the population on line 1 by .10 (10%)

22045

3. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a first NCE aural service (i.e., currently receiving no other NCE-FM station on a reserved channel) from the proposed facility is:

                  N/A

4. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a second NCE aural service (i.e., currently receiving only one other NCE-FM station on a reserved channel from the proposed facility is:

36942  N/A

5. Is the number of people reported in 3. and 4. equal to or greater than line 2? If "No," applicant should answer "No" on Section III of Form 340.

Yes  No

6. Is the number of people in 3. or 4. at least 2,000? If "No," applicant should answer "No" to the questions in Section III of Form 340.

Yes  No

Applicants answering "Yes" to both Questions 5 and 6 should answer "Yes" to the corresponding question in Section III of Form 340 (Question 1 for first service, Question 2 for second service) and include an exhibit describing the extent of first and/or second service. Applicants may use this worksheet as the exhibit, if desired.

**WORKSHEET #6**

**FAIR DISTRIBUTION.** FM Applicants may use this worksheet to answer the questions in Section III, Questions 1 and 2.

1. Using the centroid method for calculating population, based on the most recent census block data, the number of people residing within the radio station's 60 dBu (1 m/Vm) service contour (calculated based on the standard curves in 47 C.F.R. Section 73.313(c) is:

249125  
x .10

2. Multiply the population on line 1 by .10 (10%)

24912

3. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a first NCE aural service (i.e., currently receiving no other NCE-FM station on a reserved channel) from the proposed facility is:

                  N/A

4. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a second NCE aural service (i.e., currently receiving only one other NCE-FM station on a reserved channel from the proposed facility is:

34772  N/A

5. Is the number of people reported in 3. and 4. equal to or greater than line 2? If "No," applicant should answer "No" on Section III of Form 340.

Yes  No

6. Is the number of people in 3. or 4. at least 2,000? If "No," applicant should answer "No" to the questions in Section III of Form 340.

Yes  No

Applicants answering "Yes" to both Questions 5 and 6 should answer "Yes" to the corresponding question in Section III of Form 340 (Question 1 for first service, Question 2 for second service) and include an exhibit describing the extent of first and/or second service. Applicants may use this worksheet as the exhibit, if desired.

## **PETITION FOR RESERVATION OF ASSIGNMENT, Cont'd**

The following searches have been conducted in compliance with paragraph 35 of the NCE Second Report and Order. The searches are listed in order of degrees of the circle as per paragraph 35 starting with 0 degrees. At the top of every new search page is a summary of what location the search originated. The columns of the search are broken up into the call sign of the station (CALL), city, state (ST), channel (CHN), class of station (CL), distance from proposed site (DIST), required separation if applicable (SEP), bearing from proposed site to interfering station (BRNG), and the clearance of the proposed site to the interfering station measured in dB (CLEARANCE). Negative numbers in the clearance column represent interference to the incumbent station. There are five searches within this Exhibit and a separator page between each. The last search is from the center city coordinates of Anniston at minimum class C3 facilities. There are not any openings in the Anniston area for a minimum class C3 station.

As can be seen from this exhibit, the 70 dB $\mu$  covers in excess of 80% of the Anniston corporate limits.

Exhibit 4 Figure 1

**PETITION FOR RESERVATION OF ASSIGNMENT, Cont'd**

The requested reservation of FM Channel 261C3 meets all the requirements of the Second Report And Order, MM Docket No. 95-31. Therefore, Jimmy Jarrell Communications Foundation, Inc., hereby requests that FM Channel 261C3 Anniston, Alabama be reserved for non-commercial use.

Jimmy Jarrell Communications Foundation, Inc., hereby commits to file an application for FM Channel 261C3 if it is reserved, and will promptly build the station if the application is granted.

Respectfully submitted,

Jimmy Jarrell  
Jimmy Jarrell Communications Foundation, Inc.
